

You cannot change this law - the telemarketing calls that I was receiving on a daily basis have almost stopped - I only receive approximately 1 call per week. Before this law was in effect I was receiving an average of up to 10 to 12 calls per day. If I want something I'll call someone - I don't want to be bothered (as early as 8 am up until 10 pm at night with phone calls from strangers.
